

APERTURE

for string quartet

Amy Brandon 2018

Instrumentation.

Violin I
Violin II
Viola
Violoncello

Duration.

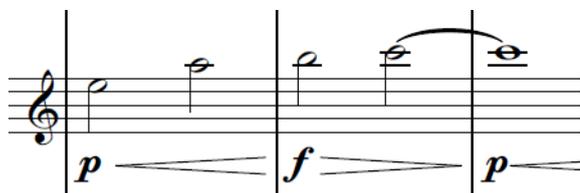

~5min

Program notes.

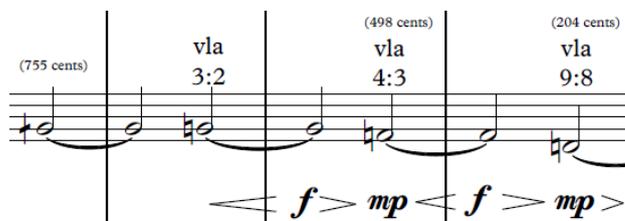

Aperture uses a combination of tuning systems and dynamic shifts to create the impression of a fluid, shifting but static portal or rift.

Technical notes.

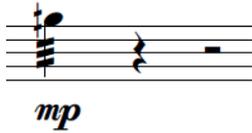

1. The primary goal of this piece is resonance. All notes should be tuned to be as resonant as possible within the ensemble.
2. Pitch material is a combination of equal temperament, quartertones and just intonation from a C fundamental. Pitches are intended to be tuned to be as resonant as possible throughout the piece, with the exception of equal tempered quartertones, which should be as dissonant as possible.
3. Pitches are almost exclusively restrained to the same octave (G3-G4) across all instruments to ensure close voicings. Staying sul G on the violins, viola and sul A on the cello is preferred, but not required, except where a neighbouring open string is needed.
4. Equal temperament pitches either have **no accidental** or a **regular accidental**.

5. Just intonation intervals are indicated through natural symbols, Helmholtz-Ellis notation and/or ratios.

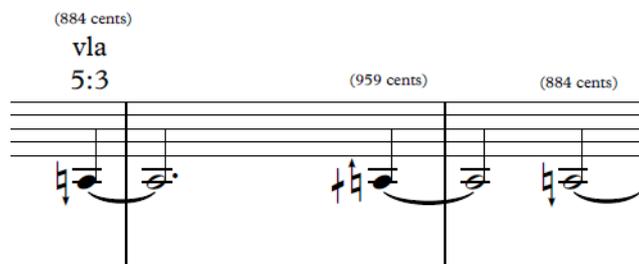

6. Quartertones are tuned normally, about 50 cents sharper than equal tempered intervals and are indicated with the usual quartertone accidentals.

To correctly tune the Just Intonation pitches:

- It may be helpful to practice the Just Intonation pitches (sul G or sul A) with a tuner to familiarize the location and sound. A chart with the pitches in cents is below for reference. However, **in performance, the most resonant interval possible is desired – actual tuning to the exact cent is not expected.**
- In performance, there is notation to guide you to the approximate pitch.
- Firstly, aim for the indicated note: in this example, a natural A below middle C. Sliding into notes to tune is acceptable.
- This note should be tuned slightly flat (indicated by the downwards arrow on the natural sign) so that it is **resonant with the ensemble** and/or **makes the correct interval indicated.**

- In the above example, the first violin tunes the A3 slightly flat to a natural minor third below C in the viola, then to a natural minor third, sharpened by one syntonic comma (21.5 cents) plus one undecimal quartertone (53 cents) and returning to the original slightly flat A natural.

<i>Notation indicates the instrument to tune to, and the interval</i>	
Octave: ie. tune to a unison or octave with the first violin	vln1 1:1

Perfect Fifth: ie. tune a perfect fifth above the viola	vla 3:2
Augmented Fourth: ie. tune an augmented fourth above the viola	vla 24:17
Perfect Fourth: ie. tune a perfect fourth above the first violin	vln1 4:3
Natural Major Third: ie. tune to a natural major third above the viola	vla 5:4
Natural Minor Third: ie. tune to a natural minor third below the viola	vln1 5:3

So in this piece, while the actual pitch may be +59 cents or -27 cents compared to equal temperament, you will almost always be tuning these pitches using a common interval with another member of the group. This is to take advantage of the usual tuning process of string quartets to achieve the most resonant intervals. **Sliding into pitches in order to tune correctly is acceptable.**

- In addition, for clarity in cases of melodic lines between JI pitches, square and triangle brackets indicate the actual interval from the previous note. This is to help in cases where the starting and ending pitches are unclear, but the distance between them is a perfect interval.

Square brackets alone indicate **just intonation 9:8 wholetones** (204 cents).

Triangle brackets indicate **just intonation 16:15 semitone** (113 cents).

Square brackets with a (ie. 2:1, 3:2, 4:3, 24:17) indicate a just intonation octave, perfect fifth (702 cents), perfect fourth (498 cents), and augmented fourth (668 cents).

Below is a chart of the Just Intonation pitches used in this piece with actual cents, cent difference from equal temperament and notation. MIDI bend information has been used to approximate the sounds in Sibelius for the MIDI MP3 accompanying this score.

Note and MIDI Bend	Partial / Ratio	Cent Difference	Actual Cents
B [^] : 0,77	495/256	B+41.5	1141.5
B _v : 0,61	15/8	B-11.7	1088.3
B _b : 0,69	9/5	B _b +17.6	1017.6
A [^] :0, 83	891/512	A+59.1	959.1
A: 0,59	5/3	A-15.6	884.4
A _b : 0,68	8/5	A _b +13.7	813.7
G [^] : 0,82	99/65	G+55.2	755.2
G: 0,65	3/2	G+2	702
F [#] : 0,78	1485/1024	F#+43.5	643.5
F: 0,63	4/3	F-2	498.0
E: 0,60	5/4	E-13.7	386.3
E _b : 0,69	6/5	E _b +15.6	315.6
D [^] : 0,82	297/256	D+57.2	257.2
D: 0,65	9/8	D+4	203.9
C [^] : 0,78	4455/4096?	C+45.5	45.5
C: 0,64	1/1	C 0	0

8. The piece can be played as slowly as needed, however, the given tempo is ideal.
9. Dynamics should always be smoothly shifting, fluid and dramatic in order to give the impression of a physical 'aperture' appearing and disappearing. **Exact dynamics are not required as long as the general curvature is followed.**

molto sul pont

70

Musical score for measures 70-75. The score consists of five staves: two treble clefs, a grand staff (treble and bass clefs), and a bass clef. Measure 70 starts with a treble clef staff containing a half note chord (F#4, A4, C5) marked *mf*. The grand staff has a half note chord (F#2, A2, C3) marked *mf*. The bass clef staff has a half note chord (F#2, A2, C3) marked *p*. Measure 71: Treble clef staff has a half note chord (F#4, A4, C5) marked *p*. Grand staff has a half note chord (F#2, A2, C3) marked *mf*. Bass clef staff has a half note chord (F#2, A2, C3) marked *mp*. Measure 72: Treble clef staff has a half note chord (F#4, A4, C5) marked *mp*. Grand staff has a half note chord (F#2, A2, C3) marked *pppp*. Bass clef staff has a half note chord (F#2, A2, C3) marked *mf*. Measure 73: Treble clef staff has a half note chord (F#4, A4, C5) marked *mf*. Grand staff has a half note chord (F#2, A2, C3) marked *f*. Bass clef staff has a half note chord (F#2, A2, C3) marked *mp*. Measure 74: Treble clef staff has a half note chord (F#4, A4, C5) marked *mf*. Grand staff has a half note chord (F#2, A2, C3) marked *mp*. Bass clef staff has a half note chord (F#2, A2, C3) marked *p*. Measure 75: Treble clef staff has a half note chord (F#4, A4, C5) marked *p*. Grand staff has a half note chord (F#2, A2, C3) marked *mf*. Bass clef staff has a half note chord (F#2, A2, C3) marked *mp*. Performance markings include dynamic changes (*mf*, *p*, *mp*, *pppp*, *f*) and pitch bends in the grand staff: (755 cents) and (643 cents).

76

Musical score for measures 76-81. The score consists of five staves: two treble clefs, a grand staff (treble and bass clefs), and a bass clef. Measure 76: Treble clef staff has a half note chord (F#4, A4, C5) marked *mp*. Grand staff has a half note chord (F#2, A2, C3) marked *pp*. Bass clef staff has a half note chord (F#2, A2, C3) marked *mf*. Measure 77: Treble clef staff has a half note chord (F#4, A4, C5) marked *mp*. Grand staff has a half note chord (F#2, A2, C3) marked *mp*. Bass clef staff has a half note chord (F#2, A2, C3) marked *mf*. Measure 78: Treble clef staff has a half note chord (F#4, A4, C5) marked *mf*. Grand staff has a half note chord (F#2, A2, C3) marked *f*. Bass clef staff has a half note chord (F#2, A2, C3) marked *p*. Measure 79: Treble clef staff has a half note chord (F#4, A4, C5) marked *mf*. Grand staff has a half note chord (F#2, A2, C3) marked *mp*. Bass clef staff has a half note chord (F#2, A2, C3) marked *mf*. Measure 80: Treble clef staff has a half note chord (F#4, A4, C5) marked *mf*. Grand staff has a half note chord (F#2, A2, C3) marked *f*. Bass clef staff has a half note chord (F#2, A2, C3) marked *p*. Measure 81: Treble clef staff has a half note chord (F#4, A4, C5) marked *mf*. Grand staff has a half note chord (F#2, A2, C3) marked *mp*. Bass clef staff has a half note chord (F#2, A2, C3) marked *p*. Performance markings include dynamic changes (*pp*, *mp*, *f*, *mp*, *p*) and pitch bends in the grand staff: (257 cents) 6:5, (1141 cents) 4:3, (439 cents), (1141 cents), and (386 cents).
